Work Breakdown Structure (G41)

Internship Result Management System | COMP1044

Project Team Information

Coursework	Database and Interfaces (COMP1044)
Submission Date	April 27, 2026

Team Members

Student Name	Student ID
ZHAOHENGYI	20792131
Mohammad Hazim Mohammad Raymin	20802516
Atsuhiro Tsukata	20802060

Individual Contributions & Effort (8 Parts)

Component	Assigned Member	Detailed Contributions
1. ERD (Entity Relationship Diagram)	Mohammad Hazim Mohammad Raymin	Designed logical structure using Crow's foot notation; illustrated entities, attributes, and relationships.
2. DATABASE Implementation	Mohammad Hazim Mohammad Raymin	Created MySQL tables; implemented primary/foreign keys and referential integrity constraints.
3. CSS (Styling & Layout)	Atsuhiro Tsukata	Developed clean, responsive UI; styled login portal and assessment forms for consistency.
4. HTML (Structure & Forms)	Atsuhiro Tsukata	Built front-end architecture and interactive forms; implemented client-side data structures.
5. PHP (Server-Side Logic)	ZHAOHENGYI/ Atsuhiro Tsukata	Programmed backend authentication and database connectivity; built automated mark calculation logic.
6. WBS (Work Breakdown Structure)	ZHAOHENGYI	Documented individual efforts and mapped development tasks to assessment criteria.
7. VIDEO (Demonstration)	Mohammad Hazim	Produced 5-minute demo

	Mohammad Raymin	showcasing student management, result entry, and database interaction.
8. System Integration & Testing	ZHAOHENGYI/ Atsuhiro Tsukata/ Mohammad Hazim Mohammad Raymin	Final testing for bugs; verified search/filtering functions and role-based access control.
